

BDC-66

Heavy Duty Dust Collector

BDC-66

Heavy Duty Dust Collector

The BDC-66, a six cartridge auto pulse dust collector, is preferred by professional contractors requiring continuous operation and high performance. It is designed for high productivity, easy dust handling and ease of maintenance. The powerful motor and blower provide increased airflow and lift. The innovative silencer reduces noise and contains a slide gate to reduce vacuum when used with smaller equipment. The side access panel allows unfettered access to filters.

AIR FLOW:
1294 CFM

POWER:
1 POWERFUL MOTOR | 230V,
(22A), 460V, (11A), 3Ø

CLEANING:
AUTOMATIC PULSE
CLEANING SYSTEM

STATIC PRESSURE:
21 IN H₂O
